APPLICATION RECORD

Permit number	2026-ROW-10
Submitted	October 8, 2026 at 12:39 PM CDT
Status	Received
Board meeting date	—
Authorized start	—
Authorized end	—

PROJECT

Permit type	Buried utility — mainline
Public title	Norvado Iron Vilas Fiber (CM61-BEAD-WI-27F003)
Scope of work	I'm Andrew Saleh, an archaeologist from UW-Milwaukee, and we've been contracted to do archaeological survey for Norvado, who will be installing fiber optic cable. To follow historic preservation laws, we are required to do survey within ROW owned by your Town. The survey will consist of handing digging small pits (~30"), typically about two feet deep, every 50 feet within our survey areas. State law requires that before we can do any archaeological fieldwork on public lands, we are required to have a public lands permit (PLP). That permit requires a signature from someone from the controlling public agency or municipality. I've attached a copy of the form as well as map(s) showing where we need to survey. Would you, or someone else you can put me in contact with, be able to help me with this?
Traffic impact	No traffic impact

LOCATION

Road	Papoose Lake Rd
